

I want to express my concern regarding Low Power FM which may not allow me to listen to K-Love in my home and my car. This is such an uplifting station that it helps me through my day and I know it is a great inspiration to others in my community as well. I believe that K-Love serves the public with inspiration that so many people need in a world with so many problems today. Please do not allow a Low Power FM station to not allow me to listen to my favorite station.  
Thank you.
